

Portfolio Renewal and Network Optimization

The next era of care

With over 135 years in surgery, we've advanced surgical science and care. Looking ahead to the next 135 years, we're evolving to better serve clinical teams, patients, and healthcare systems worldwide. We're streamlining our portfolio to focus on key areas: wound closure, hemostats, stapling, energy, robotics, and digital solutions. These changes will help us deliver innovative solutions faster and more effectively to those who need them most.

In the US, we will be discontinuing sales of (Feb – Sept):

- **ENDOPATH™ Electrosurgery PROBE PLUS™ II System**
- **MEGADYNE™ Electrosurgical Generator**
- **Select PERMA-HAND® Silk Sutures**
- **Select SURGIFOAM® Absorbable Gelatine Products and SURGIFOAM® POWDER Kits**
- **Fast Absorbing, Chromic and Plain Gut Sutures**
- **Skin Staplers and additional SKUs of other surgical accessories and products**
- **Select MONOCRYL™, VICRYL™, and PDS™ Sutures**

Visit [CatalogHub](#) as a resource for these specific portfolio changes announced April 2025 - Feb 2026. Add to list feature - an option to export a custom product code list.
